

DSL

```
graph TD; DSL[DSL] --> Compiler[Compiler]; Compiler --> Runtime[Runtime]; Runtime --> Database[Database];
```

A vertical flowchart with four rounded rectangular boxes. The first box is yellow and contains the text 'DSL'. A grey arrow points down from it to a green box containing 'Compiler'. Another grey arrow points down from the green box to a blue box containing 'Runtime'. A final grey arrow points down from the blue box to a red box containing 'Database'.
